Objectives

Analytical and driven final-year Industrial and Production Engineering student at BUET, backed by a strong academic foundation and real-world industry exposure. Keen to leverage my skills, contribute meaningfully, and grow through impactful work.

Education:

2022-current: BSc in Industrial and Production Engineering

- Bangladesh University of Engineering and Technology
- Level - 4/Term - 2
- CGPA 3.54 (Scale: 4.00)

2018-2021: Higher Secondary Certificate

- Govt. MM College, Jashore | GPA 5.00 (Scale: 5.00)

2016-2018: Secondary School Certificate

- Nahata Rani Patit Pabani Secondary School | GPA 5.00 (Scale: 5.00)

Work Experience:

9 Nov 2025- 10 Dec 2025: **British American Tobacco, Savar, Bangladesh**

- Industrial Attachment
- Authored **25+ SOPs** for 10+ utility assets at BATB Savar, enabling standardized onboarding for **100+ technicians** and improving safety compliance during routine operations

Skills:

Data Analysis:

- Power BI
- Microsoft Excel
- Statistical Analysis
- Data Visualization

Engineering & Technical:

- SOP Development
- Ergonomics
- Lean Manufacturing
- Six Sigma (Basics)
- Quality Control

Programming & software:

- Python, MATLAB, C
- AutoCAD
- SolidWorks
- CATIA

Soft skills & management:

- Project Management
- Team Collaboration
- Event Coordination
- Technical Writing

Projects and Achievement

AquaPellet Feeder | Multidisciplinary Team Project | BUET (2024-2025)

- Designed an automated aquaculture feeding system in a cross-functional team, targeting improved pellet distribution efficiency and reduced feed wastage.
- Applied process flow analysis and CAD-based mechanical design to optimize system performance and sustainability outcomes.

Real-Time Fire Incident Detection and Warning System for Garments Industry | IoT-Based Project | BUET (2025)

- Built an IoT-based fire detection and alert system for garments factories, integrating sensor networks for real-time monitoring and instant warning dispatch.
- Addressed critical workplace safety gaps in Bangladesh's RMG sector by applying industrial safety standards and process control principles.

Dean's list Award BUET(2023): Awarded for excellent academic results

Technical Scholarship (2022 – Current)

Extracurricular Activities:

- Vice President, “BADHAN, BUET Zone” — Coordinated blood donation activities and managed the collection of 300+ units of blood.
- Hosted the Ambassador of Nepal to Bangladesh in Dhaka as the General Secretary of the Organizing Committee at an event attended by 5,000+ participants in Dhaka.
- Logistics Secretary, AIPE, BUET | Organized and oversaw logistics for departmental programs.
- Editor of three student magazines- edited and supervised content for these, ensuring quality and timely publication.
- Participated in Hult Prize and IEOM business case Competition developing and presenting solutions to real-world industrial and social challenges.

Certificates:

Advanced Excel Mastery

- Unbolt Academy
March 2026

Six Sigma White Belt Certification

- Council for Six Sigma Certification (or Issuing Organization)
April 2026
